During the Autumn and Spring Terms your child will be participating in rugby and hockey. In the interest of your child's safety it is mandatory that a mouthguard is worn to participate in these sports.

- You can choose between 3 protection levels and add anti-microbial protection to the mouthguard
- Made in OPRO's manufacturing facility in Hertfordshire, the Instant Custom-Fit offers the highest level of protection as worn by professionals

OUR SERVICE

From a concept that became reality over 25 years ago at a dining room table in Hertfordshire, **OPRO** has grown to become the most innovative and progressive mouthguard company in the world.

Supplying over ten million mouthguards globally to individuals, athletes, school kids and the best teams and associations, we know what makes a good mouthguard. We've been able to tailor and improve our mouthguards over time with cutting-edge technology and we will never stop striving for perfection.

"My background as a dentist gives me real insight into the oral injuries that can occur during contact sports. When a child loses teeth from a sporting accident the consequences last a lifetime because unlike bones, teeth don't heal. In almost every case the damage could have been prevented or reduced by wearing a well-fitting mouthguard."

INSTANT CUSTOM-FIT

The Instant Custom-Fit mouthguard needs no dental impression and is manufactured using the same equipment and identical material as a traditional mouthguard, but is fitted by the wearer in one simple stage using our patented Compression Cage. This is possible due to these 3 main features of the Instant Custom-Fit:

1 PATENTED FIN TECHNOLOGY

2 DENTAL GRADE PROTECTIVE SHELL

3 PATENTED DUAL COMPRESSION CAGE

Our hyperflex technology aids dynamic compression to produce a dentist-level fit.

* Dual compression cage shown is for 10+ adult

PROTECTION LEVELS

The aim of the mouthguard is to protect your teeth and soft tissue from injury when you're taking part in a contact sport. We offer 3 protection levels so that you can choose the most suitable for you and your sport.

Standard – Impact is suitable for contact sports involving a ball such as rugby, handball and basketball.

Enhanced – Impact is suitable for stick and ball contact sports such as hockey, lacrosse, boxing and MMA or athletes participating in contact sports seeking high protection.

Ultimate – Impact offers the ultimate protection and comfort. This uniquely designed mouthguard consists of three layers and offers top of the range protection. It is suitable for athletes seeking the most protective yet comfortable mouthguard for their sport.
